<div style="font-size: small; margin-bottom: 10px;">PERTINENT INFORMATION</div> <p>The original of this document is filed in U/M dossier filed at the EA/FI/Zipper desk.</p>   <p>j. <u>V-14411</u>: This man, as you well know, is U/M's Chief of Hungarian Operations. I will accept with pleasure any evidence you can find indicating that he has <u>wittingly</u> forwarded refugee interrogations as agent reports; that he has <u>channeled</u> information to the ZAKO group; or that he has fabricated intelligence reports, at least in the past two years. Surely, if V-14411 had done such things, it would have been apparent, since you get the ZIPPER reports, and you doubtless have access to ZAKO's product. Carriage will help to dispel doubts about this man, I hope, but I do not believe that any charges of fabrication and/or peddling are true. In discussing this with [ ] [ ] (who concurred in quoting him), he expressed the view that he or I could as well be named in these sheets. V-14411 is the channel through which all of U/M's Hungarian reports pass to U/M and thence to me. V-14411 is in direct contact, among agents, only with V-14615 (and this only recently, following V-14615's last trip to Hungary) and ADLER. He may be fooled at times (as who is not ?), but I think V-14411 will not deliberately deceive.</p>   <div style="text-align: right; font-size: small; margin-right: 50px;">             DECLASSIFIED AND RELEASED BY              CENTRAL INTELLIGENCE AGENCY              SOURCES/METHOD/EXEMPTION 3B2D              NAZI WAR CRIMES DISCLOSURE ACT              DATE 2006           </div>  <p style="text-align: center;">THIS IS ALL THE INFORMATION PERTINENT TO THE SUBJECT IN THIS DOCUMENT.</p>  <p style="text-align: center; font-size: large; font-weight: bold;">SECRET</p>
